HSC	Vikram Junior College, Naidupet.	State Board	2021	88.4
SSC	ZP High School, Menakuru.	State Board	2019	8.0

PROJECT

- **Automated College Timetable Generator**

It is designed to help colleges or institutions create and manage class schedules efficiently. It allows users to input class names, staff names, and assign time slots to specific days of the week. The interface is user-friendly, with clearly defined breaks for tea and lunch that cannot be overwritten. The timetable is displayed in a table format where users can easily add, update, or modify entries. The project uses HTML for structure, CSS for styling, and JavaScript for dynamic functionality, making it an efficient tool for organizing timetables.

AREA OF INTEREST

- Data Analyst
- Web Development
- Marketing

TECHNICAL SKILLS

- Python
- Java
- Excel
- Html & Css

SOFT SKILLS

- Time management
- Problem Solving
- Team Work and Collaboration

INTERNSHIP

Python Programming

March 2024 – April 2024

Codsoft

During my internship, I developed a Python application with three features: a simple calculator for basic arithmetic, a password generator for creating secure, random passwords, and an interactive rock-paper-scissors game where users played against the computer. This project enhanced my programming and problem-solving skills.

Data Analytics and Visualization Job

December 2024

Accenture Forage

The Data Analytics and Visualization Job Simulation by Accenture through Forage offers practical experience in data cleaning, modeling, visualization, and client presentation. It helps participants build essential skills for real-world data analytics roles, enhancing their professional readiness.
